For every young hero's story!

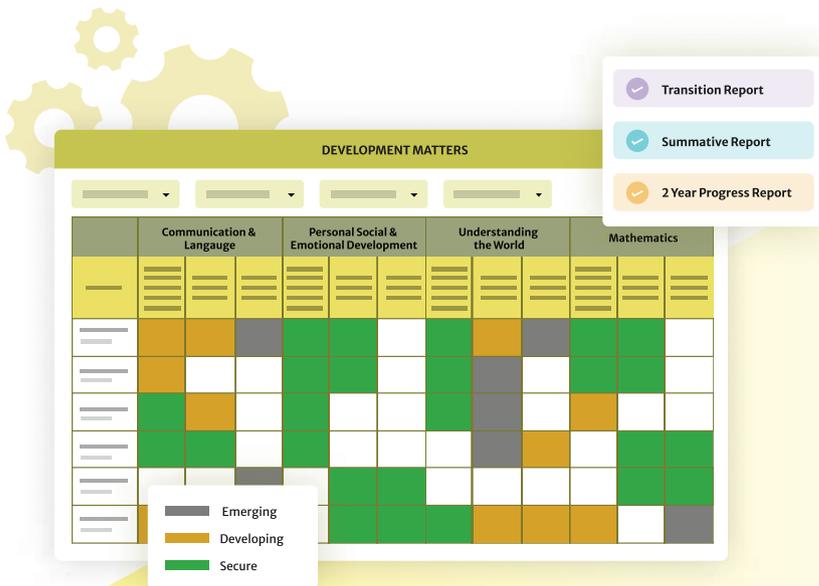

Being there for young children's early development milestones is one of the greatest joys of working in a nursery. Never miss a moment and make every learning journey milestone count with shared daily diaries, observations and reporting which makes light work of tracking achievements and next steps.

Observe, assess and share instantly

Log every important moment, track progress and share next steps for each child's development.

- ✓ Add photos, videos and audio clips to instantly share key moments with parents
- ✓ Assess progress against a range of Early Years frameworks or create your own curriculum
- ✓ Create a detailed learning journey for every child which grows as they grow

Track and report progress

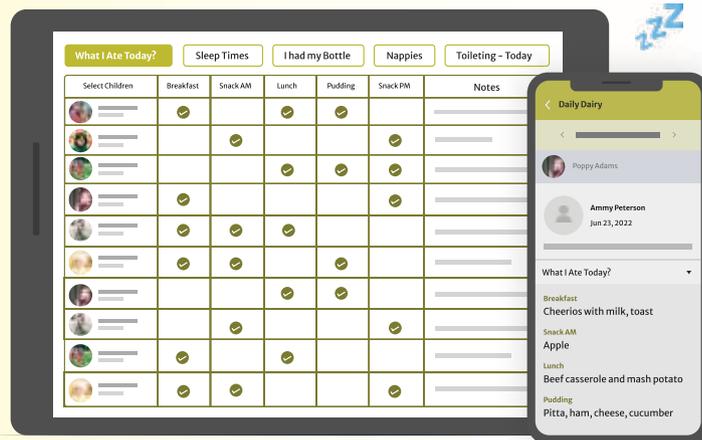

Monitor every child's progress and development with simple overviews and trackers. Create templates and custom reports for 2 year progress checks, summative and transition reports.

- ✓ Identify learning gaps and celebrate successes with the observation tracker
- ✓ Compare individual and group progress based on your chosen assessment frameworks
- ✓ Create custom reports for all occasions to share with parents

Communicate with daily diaries

Save time with individual or group activity logging. Parents can sign children in/out for automatic registers and staff can share real time updates with parents throughout the day.

- ✓ Set up menus and weekly rotation schedules so parents know what their child has eaten
- ✓ Add in/out times, bottles, nappies, toileting and more from one easy-to-use group screen
- ✓ Share any information instantly with parents on our dedicated parent app

eyparent

For unbeatable parental engagement!

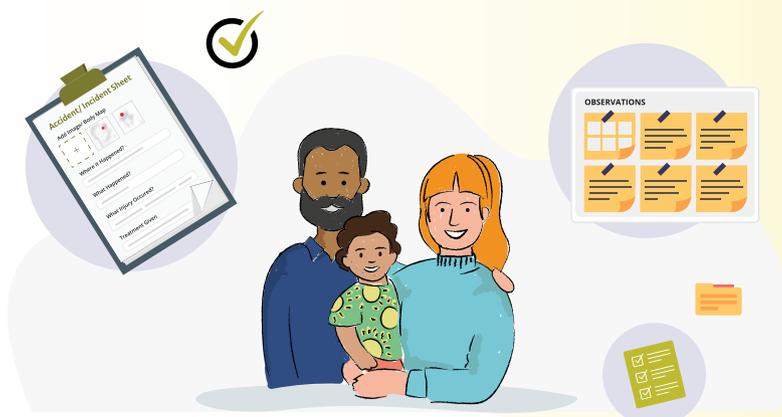

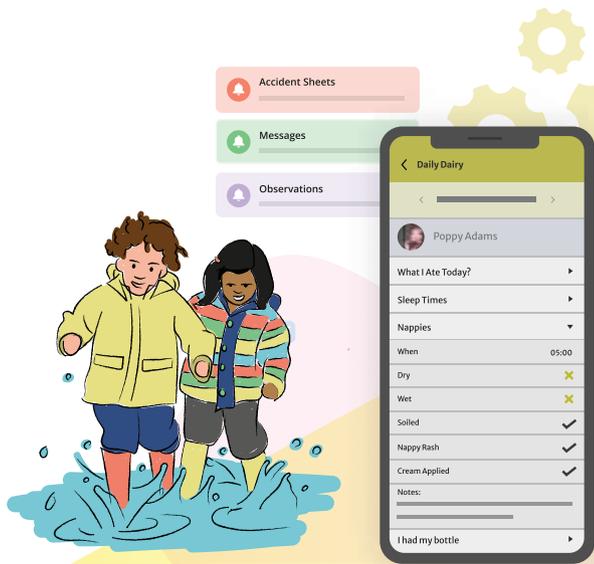

Parents can be nervous about handing over their bundles of joy to a new setting. Keep parents and carers involved and informed through their child's Early Years with an app which delivers updates instantly whenever you choose. Two-way communication supports parental engagement and helps them to be the perfect partners with home observations that add to a holistic view of each child.

Parents as partners

Build stronger parent and carer partnerships by involving and supporting them in their child's development and learning.

- ✓ Get a complete view of each child's development with parental observations
- ✓ Share next steps and activity resources to help continue learning at home
- ✓ Share accident and medicine forms with parents for review and sign off

Stay better connected

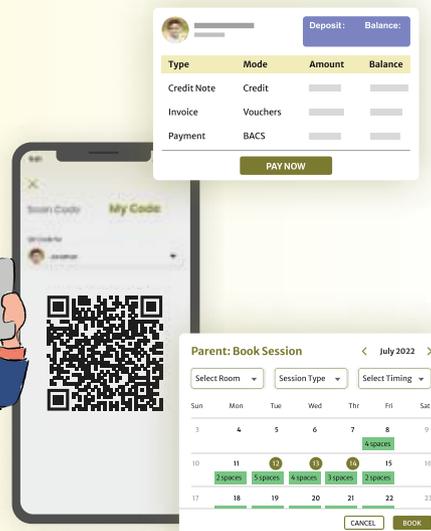

Keep in touch with parents throughout the day with regular updates about their child.

- ✓ Share live updates of the child's day straight to parents pockets
- ✓ Share documents and messages with individual or multiple parents
- ✓ Post news and updates from your setting to keep parents up to date

Put parents to work

Save staff time by engaging parents directly with your admin processes.

- ✓ Parents sign children in/out with their unique QR code
- ✓ Allow parents to book available ad-hoc sessions online to increase occupancy
- ✓ Automatically share invoices and let parents pay directly through their app
